EFLN

European Family Learning Network

Family Learning refers to a wide range of arenas and variants of learning where more than one generation may benefit from learning simultaneously.

EFLN is a multilateral network and runs December 2006 to June 2009.

EFLN focuses on Family Learning in all its aspects and arranges three Grundtvig training seminars as well as a conference within its three-year span.

“Learning is not worth a penny when courage and joy are lost along the way.”

Pestalozzi (1746 – 1827)

EFLNEWS AND WEB PAGE

EFLN is planning an online newsletter every six months and a web page. These will, among other matters, focus on sharing good practice examples, put forward by the partners in the network and non-partners alike.

Within the partnership, there will be a particular emphasis on migrant families and ethnic minority groups.

You may find out more about Family Learning and subscribe to the newsletter on web: www.efln.eu

TARGET GROUPS

Primary target group: practitioners and managers within organisations which are interested in developing a Family Learning approach to basic skills and Life Long Learning.

Secondary target group: those who will benefit from the new Family Learning interventions that will be developed as a result of the Network.

These will mainly be families with low basic skills in the different partner countries who need support to engage with learning.
